Other Resources

TX-PACE Program

Texas Property Assessed Clean Energy Program (TX-PACE) is a long term financing tool for improvements to energy efficiency, water-conservation, and on-site generation for commercial, industrial, and multifamily properties. The program allows property owners to finance 100% of their project costs with private funding paid off through a senior lien as long as the useful life of the equipment, allowing all PACE Projects to be cashflow positive. A non-profit, Texas PACE Authority, can administer the financing and is paid a user fee by the property owner. The Texas Pace Authority has also created a "PACE in a Box" toolkit for local governments to use to create uniform and sustainable local PACE programs.

For more information on how TX-PACE works, and how the Texas PACE Authority, municipalities/counties, and property owners work within it, click [here!](#)
