**Did You Know?**

**Texas Music Office Music Friendly Communities Program**

The Texas Music Office runs this program to grow local music industries. City governments may become certified as "Music Friendly Communities" by first creating a Music Office/Liaison that will act as a single point of contact to service the concerns of the local music industry and create monthly reports on music industry progress, and establishing an advisory Board comprised of local music industry stakeholders. The Certification process will also see Cities host a Music Friendly Communities workshop and partner with educational institutions. In our region, Salado and Harker Heights are Music Friendly Communities. For more information and to apply, [click](#)
